

K9 Intel offers specialized canine training and behavior modification, focused on an integrated training solution, which addresses all aspects of your dog's environment and teaches you and your dog consistent and effective communication.

It is our goal to help you build a powerful connection with your canine companion to achieve real behavioral transformation. K9 Intel applies specialized training and proven methods to control all of your dog's behavioral challenges, giving you the opportunity to live more peaceful lives together.

We will set up a consultation at your home, at which time we will perform a complete evaluation where we can determine the most appropriate training solutions for you and your dog. Whether you want to correct undesirable behavior or simply wish to take your relationship to another level, we can help you.

Our Services

Basic Obedience & Behavior Modification • Reliable obedience training based on an Integrated Training Solution (ITS) - an approach that does not just manage a specific problem, but focuses on all of the components that influence your dog's environment and the human-dog connection. Our objective is a dog with solid focus and reliable obedience in all situations.

Graduating from Basic Obedience your dog will understand: Sit, Sit with focus, Down, Down with focus, Place, Stay, Heel with loose leash, Finished Heel, and Come.

- **Behavioral Intervention** is where we focus on specific behavior problems, which are controlled through a process of desensitization; providing a clear ruled-based structure.

Advanced Obedience/Off Leash Advanced Obedience • Offered to clients who have successfully completed Basic Obedience. Advanced obedience training is a graduate program geared to perfect your dog's recall around distractions and off-leash control.

K9 Excel • Taking your dog to next level of performance once obedience is achieved. You will learn and apply the principles of clicker training. Clicker training is the process of training using a clicker as a marker for behavior that will earn positive reinforcement.

K9 Fitness • An outdoor group exercise class where both dogs and their people get fit and have fun! Curriculum designed by Milton Fiala, a Certified Personal Trainer / Certified Group Exercise Instructor. Location: Golden Gate Park @ Kezar/Martin Luther King

K9 Intel ProShop.com • We offer a "specially selected" assortment of quality brand name products and supplies preferred by Professional Dog Trainers. Check out our selection at www.K9IPS.com.
